INDIGO

L'étude d'éclairage garantit la qualité d'éclairage et le confort visuel.

Une étude d'éclairage permet de dimensionner le nombre de luminaires nécessaires dans chaque pièce, en fonction de l'usage, des normes et contraintes spécifiques, afin d'opter pour une solution à la fois économe et performante. Sur base des plans et du cahier des charges, le service Études d'éclairage Indigo vous propose un plan d'implantation réalisé sur Dialux Evo.
